ANIKET KANGANE

Full Stack Web Developer

PROFESSIONAL SUMMARY

Accomplished Full Stack Web Developer with expertise in JavaScript, MERN stack, and RESTful APIs. Adept at problem-solving and effective communication. Proven ability to quickly learn new tech stacks and proficient in using Generative AI to enhance development. Exceptional at ensuring seamless frontend-backend integration.

PROJECTS

1. Halloween Shop Clone | 🌐 | 🐙
JavaScript | React | Redux | Git | CSS3 | Responsive Web Design
- Developed an e-commerce website for selling Halloween products using *React.js*, Tailwind CSS, and Redux
- Implemented a home page, about page, shop page, cart, and checkout pages
- Collaborated with UX/UI designers to implement a user-friendly web interface

2. Codelab | 🌐 | 🐙
React | Node.js | Express.js | Responsive Web Design | JavaScript | Typescript | Redis | Socket.io
- Developed real-time collaboration features using Socket.io, enabling seamless live code editing.
- Built efficient server-side APIs with Node.js and Express.js to handle real-time data operations.
- Designed and implemented responsive web interfaces using React.js to ensure cross-device compatibility.
- Integrated Redis for efficient caching and state management in the application.
- Enabled multi-language coding support, enhancing user flexibility and project scope.

3. Event Prime Clone | 🌐 | 🐙
JavaScript | React | Redux | Node.js | Express.js | MongoDB | CSS3 | HTML5
- Developed a platform for hosting events using the MERN stack, enabling companies to sell tickets online.
- Implemented user authentication with sign-in and sign-up functionality using Node.js and MongoDB.
- Integrated Stripe for secure payment processing, ensuring seamless transactions.
- Created responsive and optimized frontend components using React.js and Tailwind CSS.
- Ensured seamless integration between frontend and backend components for a cohesive user experience.
